

# ORGANIC DESCALER HD

## Product description

Organic Descaler HD is a naturally derived, concentrated cleaning and descaling system. It combines a surfactant with a biological, natural fermentation extract for cleaning and descaling of electrical appliances, kitchen & washroom surfaces etc. Removes general soiling and mineral deposits and when used as directed, is safe to use, safe for the environment, non flammable and readily biodegradable.

## Core benefits

- Removes limescale build up, improving appliance performance, and saving money
- Removes unsightly limescale build up from surfaces improving aesthetics and preventing blockages
- Cleans effectively leaving no taste or odour in appliances
- Surface safe - safe to use on most surfaces. Avoid contact with marble surfaces
- Non toxic formula - safer to use, than traditional acid treatments as it is formulated with naturally derived organic acid

## How does it work?

Organic Descaler HD attacks limescale on contact, rapidly breaking it down. The product contains a surfactant to help loosen and lift stubborn deposits. Regular cleaning and descaling with Organic Descaler HD reduces scale build up, leaving surfaces clean and scale free.

# ORGANIC DESCALER HD

## Directions for use

### Surfaces

Apply Organic Descaler HD using a cloth or stiff brush. Allow a few minutes contact time, agitate surface and then rinse surface clean removing any loosened deposits. Repeat as necessary.

### Appliances

Empty the appliance and rinse thoroughly. Half fill the appliance with hot water, (not boiling). Dose the appliance with Organic Descaler HD (50-100ml per application). Leave for at least an hour, ideally overnight. Empty the appliance and rinse thoroughly. Most of the appliance should be descaled at this time. If some areas have not been adequately descaled, repeat the descaling process.

## Product specification

Contains: Organic acids, surfactant and dye.

Pack Size:

5L
